DIGITAL SNAKE SYSTEM

mrc

### The “Tweak” Wireless Remote Controller

- » Handheld wireless control for personal monitor mixing
- » “Tweak” 3-band EQ with high pass filter, and pan
- » Save and Recall 16 presets per mix
- » Uses 3 “AAA” Batteries
- » Adjustable backlight timer for optimized battery life

## DESCRIPTION:

The mrc, nicknamed the “Tweak”, is the handheld wireless control for the DSP Mix Engine and the user interface for the mo8me. Form and function come together in small size and wireless capability, the “Tweak” is the perfect

controller for a personal monitor system or distributed audio. Multiple mrc units can be used at one time, each with a programmable I.D. and lock out functions.
